

**TARIFF PICTURES.**

Hoke Smith's city, Atlanta, Ga., owes a heavy debt to Protection. In 1880 the average annual earnings of employees in manufacturing industries in that city were **\$242**.

In 1890 they were **\$420**.

Atlanta's assessed valuation rose in the same period from **\$15,000,000** to nearly **\$42,000,000**.

Hoke should bring these facts and figures to the attention of his chief.

ENGLAND TO BE RECOUPED.

*New York Press.*—*The London Post* of May 18th contains a pointed article on the financial and business situation, illustrating how England expects, as a matter of course, to be recouped through the repeal of the American Protective Tariff for her recent tremendous losses in money and trade. *The Post* states:

Day after day there has been a steady decline in securities, good and bad alike—and in many cases values have shrivelled up into an exceptionally small compass.

After tracing the alleged causes of England's financial calamity to South Africa, Australia and finally to America, *The Post* adds:

England is now bound to suffer, nor will a reduction in the Tariff, which may be expected under the present Administration, afford for some time adequate compensation.

That is, one of the most intelligent of Englishmen, in our judgment, expects the reduction of the American Tariff, to be expected under Cleveland's Administration, will not for some time adequately compensate England for her recent enormous losses, amounting in the case of Australia alone to many millions of dollars. Of course if England is to be compensated for these losses the compensation must come from somewhere, and the somewhere is the wages of the American workman and the earnings of American industries. When the British newspapers rejoiced over the election of Grover Cleveland and it was because they knew him as one who could be trusted to look well after British interests, what might become of American interests.

Edward Atkinson.

EDWARD ATKINSON, though a Free-trader, is too honest a man and too thoroughly conversant with the statistics of this country's wonderful growth under Protection to subscribe to the absurd falsehoods by which the last election was won. Of these no single one has been used to greater advantage in the agricultural states by Democratic demagogues than the alleged impoverishment of Western farmers by Protection. So important to their success did the Democratic leaders consider the assiduous dissemination of this falsehood that they gave it a prominent place in their National platform.

Mr. ATKINSON has of late been examining the census statistics of farm mortgages, collected as he assures us by "two of the most thoroughly competent men in the country." How radically his conclusions differ from the demagogic utterances of the Democratic platform will best be shown in this par-

agraph.

Demagogic Platform.

We call the attention of thoughtful Americans to the fact that after thirty years of Protection, the taxes against the importation of foreign wealth, in exchange for the surplus, the homes and farms of the country have been converted into a real estate mortgage debt of over \$2,500,000,000, exceeding all forms of indebtedness; that in one of the great agricultural states of the West there appears a real estate mortgage debt averaging \$100 per capita of the total population, and that similar conditions and a similar state of affairs is shown to exist in the other agricultural exporting states. We call the attention of the country which fosters no industry so much as that of the Sheriff.

Investigating the Pork, Grain and Milling Business.

EDWARD ATKINSON, of the

most of the Western

states are free of any mortgage of any kind. Less than one-half of the farms in the country are mortgaged.

The amount of the mortgages, taken as a whole, is less than one-half the value of the mortgaged land.

Half of the land on mortgages has been lent by citizens of the same state in which the mortgaged farms are.

The indebtedness on mortgages of Western and Eastern capitalists, or others who do not dwell in the same state, is less than 124 per cent of the true value of the farms lands in the same state.

I did what I could to promote the appropriation of the census, in full confidence that the representatives of the farming industry of the West at that time, and then the representatives of almost any other important branch of industry in this country.

The Board reserves the right to reject any or all bids. The bidder must be present to receive the privilege of the meeting. Mr. W. W. Moore, Editor of *The Christian Advocate*, Rev. W. H. Moore, Dr. W. H. Moore, Dr. W. H. Moore, Conference and the Southern Educational Conference and Friends of the District, the meeting will commence Thursday, July 4th, and continue until Monday, August 1st, and will be conducted by the Rev. Dr. W. H. Moore, siding Elder. Anyone desiring rooms or tents write

Mr. W. H. Moore, Mayville, Ky.

  
The Plankinton bank was organized in 1887 by the late John Plankinton, the millionaire pork packer. F. T. Davis was one of Mr. Plankinton's most trusted confidants. He had been a director. Mr. Plankinton was the first president, but Mr. Davis assumed the active management of the business from the start. After the death of Mr. Plankinton, Mr. Davis was elected president. Mr. W. H. Plankinton, the son of the founder, was chosen vice-president, to represent the stock of the Plankinton estate and that held by himself in the company.

The Plankinton bank was made to Washington Thursday afternoon. Mr. Plankinton was pleased under bonds to the amount of \$1,000,000. His bondsmen are John L. Mitchell, Charles Ray and David Ferguson.

The state law regarding assignments to the bank, however, would not be placed at a figure equal to the nominal assets of the involved firm. According to the bond the bank's assets are \$1,500,000.

With the failure of the Plankinton bank, chances for the organization of the Lappan business fail flat. There is no longer any hope that the proposed company can be organized.

Sheriff Dunn has on hand more than \$60,000 in claims against the Lappans with the total value of the stock, according to the appraiser's inventory, is \$20,000.

#### TO THE WALL.

Firmly It Withstood the Terrible Pressure,

But the Lappan Failure Was Too Much For It,

And the Big Plankinton Bank of Milwaukee, Put Up the Shutters. It Was Crimped by the Heavy Run on Its Coffers Two Weeks Ago.

**MILWAUKEE**, June 2.—The Plankinton bank, which stood a hard run two weeks ago, has been crimped by the heavy run on its coffers two weeks ago. The Plankinton bank, all of which had been loaned \$200,000 to that firm, closed its doors Thursday morning and made an assignment. Thursday afternoon, A notice was placed on the door of the failure to the public to the failure of the bank to organize the bank and the constant withdrawal of deposits it was thought best to close the bank. The Lappan inventory was finished Wednesday evening, and the poor showing of assets by the bank was evident.

The Plankinton's retained claims against the Lappan business aggregated \$210,000. The claims of Robert Hill and A. Landauer, all of which take precedence of the Plankinton, aggregate \$100,000. The Lappan business, which shows a total of only \$90,000, is allowing \$55,000 of this amount for the satisfaction of the Hill and Landauer claims there is left but \$155,000 to be paid making good the Plankinton's

loss. The Plankinton's principal correspondence abroad was with the National Bank of the Republic and the United States national bank of New York and the continental national of Chicago.

The condition of its business with these concerns is said to be bad, and it is officially stated that the \$100,000 that came to the relief of the Plankinton did not run up to the amount of the Plankinton's loss. The meeting will commence Thursday, July 4th, and continue until Monday, August 1st, and will be conducted by the Rev. Dr. W. H. Moore, siding Elder. Anyone desiring rooms or tents write

Mr. W. H. Moore, Mayville, Ky.

Just before the Lappan failure the sight and time deposits amounted to \$2,000,000 in round figures. This money, of course, in regular order of banking business, was about even in loans of small amounts.

The Plankinton's principal correspondence abroad was with the National Bank of the Republic and the United States national bank of New York and the continental national of Chicago.

The condition of its business with these concerns is said to be bad, and it is officially stated that the \$100,000 that came to the relief of the Plankinton did not run up to the amount of the Plankinton's loss. The meeting will commence Thursday, July 4th, and continue until Monday, August 1st, and will be conducted by the Rev. Dr. W. H. Moore, siding Elder. Anyone desiring rooms or tents write

Mr. W. H. Moore, Mayville, Ky.

The Plankinton bank was organized in 1887 by the late John Plankinton, the millionaire pork packer. F. T. Davis was one of Mr. Plankinton's most trusted confidants. He had been a director. Mr. Plankinton was the first president, but Mr. Davis assumed the active management of the business from the start. After the death of Mr. Plankinton, Mr. Davis was elected president. Mr. W. H. Plankinton, the son of the founder, was chosen vice-president, to represent the stock of the Plankinton estate and that held by himself in the company.

The Plankinton bank was made to Washington Thursday afternoon. Mr. Plankinton was pleased under bonds to the amount of \$1,000,000. His bondsmen are John L. Mitchell, Charles Ray and David Ferguson.

The state law regarding assignments to the bank, however, would not be placed at a figure equal to the nominal assets of the involved firm. According to the bond the bank's assets are \$1,500,000.

With the failure of the Plankinton bank, chances for the organization of the Lappan business fail flat. There is no longer any hope that the proposed company can be organized.

Sheriff Dunn has on hand more than \$60,000 in claims against the Lappans with the total value of the stock, according to the appraiser's inventory, is \$20,000.

**A Big Failure.**

**CANTON**, June 2.—Assignments were made Thursday afternoon by J. H. McLean, the J. H. McLean Machine Works, to the sheriff. The nominal assets and liabilities are \$150,000 and \$30,000, respectively. The machine company manufactured busters and brass goods, and Frank C. McLean handled carpets and original oriental goods. Eastern houses are the greatest sufferers.

**Townsend Found Guilty.**

**LONDON**, June 2.—At the old Bailey court Thursday W. H. Townsend was placed on trial charged with having written a letter threatening the life of Mr. Gladstone. He pleaded not guilty, but after testimony had been given, was found guilty, but held to be irresponsible on the ground of insanity. He was sentenced to be detained during his majesty's pleasure.

**Miller's Alleged Suicide.**

**CORINTH**, June 2.—Ralph Brooks Thursday killed his master, Mrs. Ida Ward, the daughter of a wealthy farmer, who left her husband for him. He put three bullets in her head and the remaining ones in his own. Mrs. Ward died instantly. Dr. Brule's wounds are not fatal. He has been jailed.

**A Big Judgment.**

**LIMA**, June 2.—Attorney N. P. Henderon, of Kirtland, obtained a judgment in the common pleas court Thursday morning for \$18,000 against A. M. Spangler. Executions were issued to the sheriffs of Hardin and Paulding counties.

**Knowles Found Guilty.**
